Projekt aines "Hajusussüsteemide ehitamine"

Juhendaja: Andres Käver

Tallinn 2023

Autorideklaratsioon

Käesolevaga kinnitan, et esitatud töö on minu isikliku töö tulemus. Kõik töö koostamisel kasutatud teiste autorite tööd, olulised seisukohad, kirjandusallikatest ja mujalt pärinevad andmed on viidatud. Käesolevat tööd on varem esitatud samas aines aastal 2022, kuid aine deklaratsioonist oli loobunud.

17.02.2023

1. Sissejuhatus

Tihti oskavad inimesed teha rohkemat kui seda mida ütleb nende tööleping, kui selline on üldsegi olemas. Tihti on paljudel inimestel keeruline teenida eluks just sellega mis neile meeldib ja mis toob neile naeratuse suhu ja heaolu südamesse. Tihti nende oskused, kui on rakendatavad, siis väga kitsas ringkonnas, võivad olla täiesti tasustamata ja laiemale ringile üldsegi teadmata. Tihti need inimesed tahaksid tegeleda just sellega mis neile realselt meeldib ja mitte alluda ühiskonnas kehtestatud töö normidele, ning valida ise millal, mida ja kuidas nad teevad. Tihti on ka neid inimesi kes otsivad just neid oskusi mida teine inimene olude sunnil peidab ja ainuke võimalus neid leida on läbi tuttava tuttava tuttavate ... või läbi juhuse.

Eelnevast tekkiski idee teha projekt mille põhieesmärgiks oleks eraisikutele suunatud veebirakendus, mida neil oleks võimalik kasutada potentsiaalse (lisa)sissetulekuallikana reklaamides enda poolt pakutavaid oskusi/teenuseid. Oskuste/teenuste otsijal oleks aga kiire ja mugav leida endale soovitud oskus/teenust asukoha ja/või kategooria põhiselt

2. Olemi-seos diagramm

https://lucid.app/lucidchart/7d747d08-65cc-4dd6-99c6-8d1af88936a8/edit?invitationId=inv_9371c418-64c7-484d-973c-af4c3b1b5d35

3. Prototüüp

Esialgne prototüüp loodavale veebirakendusele.
